The screenshot shows a code diff interface comparing two identical JSON arrays. The left pane displays the original code with 5 lines, a 'Copy' button, and a '0 removals' message. The right pane also has 5 lines, a 'Copy' button, and a '0 additions' message. Both panes show the same JSON array:

```
1 [  
2   "PT",  
3   "ASSET"  
4 ]  
5
